

NORTHBRIDGE RESEARCH INSTITUTE

INTERNAL RESEARCH REVIEW

Document Status:

INTERNAL — NOT FOR PUBLIC DISTRIBUTION

Project:

Urban Mobility Systems

Review Date:

17 November 2025

Project Lead:

Dr. Elena Morrison

Research Classification:

Pre-publication

Current Assessment:

The research team has completed the initial data collection phase. The current findings are undergoing internal validation.

Unreleased Findings:

The preliminary model indicates that the proposed mobility intervention could reduce average peak-period congestion by approximately 14–18% in the study population.

Important:

These figures have not completed external peer review and must not be cited in public communications.

Partner Institutions:

Northbridge Research Institute

Westbridge University

Metro Systems Laboratory

Internal Notes:

- Statistical validation is still underway.
- Conference submission remains under review.
- Public release is tentatively planned for Q2 2026.
